

# Four Axis NC Saddle Cutter

## Features

For pipe or cap seal orthogonal or slanting opening or groove beveling, which is also suitable for pipe flange intersection line cutting.

### Specification

Round hole diameter:  $\phi 60\sim 1600\text{mm}$ ;

Pipe diameter:  $\phi 500\sim 6000\text{m}$ ;

Flame cutting max. thickness:  $200\text{mm}$ ;

Saddle drop height, torch lift stroke:  $0\sim 450\text{mm}$ ;

Torch angle: groove angle:  $0^{\circ}\sim 60^{\circ}$ ;

Cutting groove type: V, Y, X, K;

Flange joint type: butt joint, insert, mount type.
