

# Large Pipe

## Features

- > High tech welding technology with mechanical system to realize multiple work high quality welding.
- > The-state-of-art position control technology One circle has 16 separate zones for various welding parameters setting, the datum are smoothly passed to make welding more stable.

Specification	
Pipe diameter	above $\phi$ 200mm;
Suitable thickness	max.25mm;
Material	mild steel, alloy steel, SS and etc.;
Weld type	all position
