

Portable CNC Plasma and Profile Cutting Machine

Features

- › Portable CNC cutting machine with wide rails.
- › Increased stability as compared to peers in the market.
- › Rigid structure ensures better accuracy over life of the machine.
- › Oxy fuel and plasma cutting processes.
- › Integrated with Powermax range of Hypertherm plasma machines.

Cutting Thickness	1.5 mm – 20 mm MS by plasma cutting 1 mm – 18 mm SS by plasma cutting 6 mm – 100 mm MS by gas cutting
Model Number/Name	Mini CNC Plasma & Profile Cut
Brand/Make	MET ARC
Effective Cutting Width	1.5 – mtr
Effective Cutting Length	3 – 6 mtr
Cutting Method	Plasma Or Profile
