

Small Pipe Inner

Features

- > Suitable for $\phi 50\text{--}800\text{mm}$ pipe inner stainless steel cladding with MIG and TIG two processes.

Specification

Cladding dimension: length $\leq 1000\text{mm}$

TIG cladding diameter(ID): $\phi 28\text{--}150\text{mm}$ (after cladding); MIG cladding diameter(ID): $\phi 150\text{--}800\text{mm}$.

Weld parameterized HMI input

AVC tracking and shutdown memory function.
