

# 2300B CNC Machine Controller

The digital controller 2300 is a new production, which is integrated many merits of the same productions at home and aboard. The controller can control the motion of two axis, which is apt to the application of flame or plasma cutting. This controller is very light and handy and it is very easy to operate. The controller provides menu or illustration for all the operations for the convenience of users. All key switches are human oriented designed, and they are very convenient and comfortable.

The controller chooses high speed DSP and ARM as its core to assure the cutting process to be more stable. The motion control algorithm is optimized so that the machine can move more stable and reliable, and it can save the life of the motor and the mechanical parts.
